Note: If you have a new degree at a level currently accredited by ACBSP, then report information on: student enrollment, program objectives, instructional resources, facilities and equipment, admissions requirements, graduation statistics, core professional components (CPCs), and the outcomes assessment process to ACBSP. If the new degree is at a higher level than what is currently accredited, the school must complete a self-study to add the degree.

If the new degree is at a higher level than what is currently accredited, the school must complete a self-study to add the degree. New degree programs, majors or emphases must be in effect for at least two years and have graduates before accreditation will be granted.

If the new program is determined to be substantially different from other programs offered by the institution, ACBSP, at its discretion, may direct a new visit to be conducted. If, as a result of a new program visit, ACBSP determines that the overall quality of an institution is being diminished, the institution may be scheduled for a complete reevaluation.

b. List any accredited programs that have been terminated since your last report.

c. Provide three or four examples of organizational performance results. Report what you consider to be the most important data, **using Table 6.1 Standard 6 - Organizational Performance Results, found under the Evidence File tab above.** It is not necessary to provide results for every process.
